

Siena

For Stairs That Turn

Stannah

The Stairlift People

Compact and easy to use, the Siena chair from Stannah travels along a rail that is custom-made for your stairs. With over forty years of experience making stairlifts, we know how to make the best use of the space available—helping to blend your stairlift discreetly into your life.

Whether you're accessing a basement or making full use of the rooms upstairs, the Siena gives you the freedom to set your own schedule. You can use it to carry the groceries and laundry, and park it neatly out of the way when not in use. Choose from a range of colors, and, if needed, sensible options are available to make this the perfect stairlift for your needs.

Custom-made to fit almost any staircase, the Stannah 260 saves you the trouble and cost of moving to an unfamiliar home.

A versatile design allows your stairlift to be placed on either side of the stairs, making the best use of a narrow staircase.

Easily unfolds. No need to bend over, for added safety at both landings.

Swivels at the top to face landing. Rails can also continue onto the top landing, space allowing.

Siena 260 Key Features

Upholstery

Comfortable, waterproof upholstery, available in six colors.

Chair width options

Standard model is 19½" between the armrests.
Slim model is 16" between the armrests.

Easy-to-use controls

The slimline control allows you to use any part of your hand to operate the stairlift.

Swivel levers

Use the levers, or optional one-way powered swivel, to get on and off your stairlift in the safest position at the top or bottom of your stairs.

Key Lock

The key lock prevents unauthorized use.

Custom-made

This chair travels along a rail which we custom-make to hug your stairs.

Siena chair with Tan upholstery

On/Off switch

Conveniently placed On/Off switch prevents the chair from moving unexpectedly.

Seat belt

Mounted on the armrest within easy reach.
Unfastens with a simple latch.

Easy folding

The armrests, seat and footrest fold neatly when not in use. The folding mechanism eliminates the need to bend over.

Safety sensors

These stop the stairlift if it meets an obstruction.

Armrest safety

The down-side armrest must be lowered when riding the chair.

Rated load

One person, 300lbs
